

“Here’s what I feel when I think of US Family Health Plan: Comfort. I have been a member of this plan since its inception and have always felt comfortable calling the 800 number to ask a question. The comfort comes from the sense of family that comes through every time.”

CSM Jean J.R. Roy,
US Army Ret.

“The excellent medical care we received during a recent serious illness in my family was beyond my highest expectations. Our doctor has been extremely attentive and the availability of home-health options was critical for recovery. Whatever need we’ve had, we have been covered by the US Family Health Plan.”
